

Liste Bibliographique des articles sur l'Arbre Hivernale de l'UMR PIAF (Clermont-Fd)

- Alves G, Ameglio T, Guillot A, Julien J, Petel G, Fleurat-Lessard P, Germain E (2001)** Cytological and immunological approach of vessel-associated cells in understanding the winter sugar exchanges, in walnut stems. *In* Proceedings of the Fourth International Walnut Symposium, pp 295-300
- Alves G, Ameglio T, Guillot A, Fleurat-Lessard G, Lacoite A, Sakr S, Petel G, Julien J (2004)** Winter variation in xylem sap pH of walnut trees: involvement of plasma membrane H⁺-ATPase of vessel-associated cells. *Tree Physiology* **24**: 99-105
- Alves G, Ameglio T, Lacoite A, Julien J, Guillot A, Petel G, Germain E (2001)** Implication of the plasmalemma H⁺-ATPase in sugar exchanges between vessels-associated cells and xylem vessels, in walnut stems. *In* Proceedings of the Fourth International Walnut Symposium, pp 301-307
- Alves G, Decourteix M, Fleurat-Lessard P, Sakr S, Bonhomme M, Ameglio T, Lacoite A, Julien J-L, Petel G, Guillot A (2007)** Spatial activity and expression of plasma membrane H⁺-ATPase in stem xylem of walnut during dormancy and growth resumption. *Tree Physiology* **27**: 1471-1480
- Alves G, Sauter J, Julien J, Fleurat-Lessard P, Ameglio T, Guillot A, Petel G, Lacoite A (2001)** Plasma membrane H⁺-ATPase, succinate and isocitrate dehydrogenases activities of vessel-associated cells in walnut trees. *Journal of Plant Physiology* **158**: 1263-1271
- Ameglio T, Alves G, Decourteix M, Poirier M, Bonhomme M, Guillot A, Sakr S, Brunel N, Petel G, Rageau R, Cochard H, Julien JLJ, Lacoite A (2006)** Winter biology in walnut tree: Freezing tolerance by cold acclimation and embolism repair. *In* MEAD Malvolti, ed, Proceedings of the Fifth International Walnut Symposium, pp 241-249
- Ameglio T, Bodet C, Lacoite A, Cochard H (2002)** Winter embolism, mechanisms of xylem hydraulic conductivity recovery and springtime growth patterns in walnut and peach trees. *Tree Physiology* **22**: 1211-1220
- Ameglio T, Cochard H, Ewers F, Tanino K, Arora R, Graves B, Griffith M, Gusta L, Junttila O, Palta J, Wisniewski M (2003)** Gelista (TM) : A new tool for testing frost hardiness by stem diameter variations on walnut. *In* Environmental Stress and Horticulture Crops, pp 509-514

- Ameglio T, Cochard H, Ewers FW** (2001) Stem diameter variations and cold hardiness in walnut trees. *Journal of Experimental Botany* **52**: 2135-2142
- Ameglio T, Cochard H, Lacoite A, Vandame M, Bodet C, Cruiziat P, Ewers F, Sauter J, Martignac M, Germain E** (2001) Adaptation to cold temperature and response to freezing in walnut tree. *In Proceedings of the Fourth International Walnut Symposium*, pp 247-254
- Ameglio T, Cochard H, Picon C, Cohen M** (1998) Water relations and hydraulic architecture of peach trees under drought conditions. *In R Monet, ed, Acta Horticulturae*, pp 355-361
- Ameglio T, Cruiziat P** (1992) Tension pressure alternation in walnut xylem sap during winter – the role of winter temperature. *Comptes Rendus De L Academie Des Sciences Serie III Sciences De La Vie-Life Sciences* **315**: 429-435
- Ameglio T, Cruiziat P, Beraud S** (1995) Tension pressure alternation in walnut xylem sap during winter – - Effect on hydraulic conductivity of twigs. *Comptes Rendus De L Academie Des Sciences Serie Iii-Sciences De La Vie-Life Sciences* **318**: 351-357
- Ameglio T, Decourteix M, Alves G, Valentin V, Sakr S, Julien J, Petel G, Guilliot A, Lacoite A** (2004) Temperature effects on xylem sap osmolarity in walnut trees: evidence for a vitalistic model of winter embolism repair. *Tree Physiology* **24**: 785-793
- Ameglio T, Ewers F, Cochard H, Martignac M, Vandame M, Bodet C, Cruiziat P** (2001) Winter stem xylem pressure in walnut trees: effects of carbohydrates, cooling and freezing. *Tree Physiology* **21**: 387-394
- Ameglio T, Guilliot A, Lacoite A, Julien JL, Alves G, Valentin V, Petel G** (2000) Water relations in winter: effect on bud break of walnut tree,
- Ameglio T, Lacoite A, Cochard H, Alves G, Bodet C, Vandame M, Valentin V, Saint-Joanis B, Ploquin S, Cruiziat P, Ewers F, Julien J, Guilliot A, Petel G, Germain E** (2001) Water relations in walnut during winter. *In Proceedings of the Fourth International Walnut Symposium*, pp 239-246
- Bonhomme M, Peuch M, Ameglio T, Rageau R, Guilliot A, Decourteix M, Alves G, Sakr S, Lacoite A** (2010) Carbohydrate uptake from xylem vessels and its distribution among stem tissues and buds in walnut (*Juglans regia* L.). *Tree Physiology* **30**: 89-102
- Charrier G, Ameglio T** (2011) The timing of leaf fall affects cold acclimation by interactions with air temperature through water and carbohydrate contents. *Environmental and Experimental Botany* **72**: 351-357
- Charrier G, Bonhomme M, Lacoite A, Ameglio T** (2011) Are budburst dates, dormancy and cold acclimation in walnut trees (*Juglans regia* L.) under mainly genotypic or environmental control? *International journal of biometeorology* **55**: 763-774

- Cochard H, Lemoine D, Ameglio T, Granier A** (2001) Mechanisms of xylem recovery from winter embolism in *Fagus sylvatica*. *Tree Physiology* **21**: 27-33
- Decourteix M, Alves G, Bonhomme M, Peuch M, Ben Baaziz K, Brunel N, Guillot A, Rageau R, Ameglio T, Petel G, Sakr S** (2008) Sucrose (JrSUT1) and hexose (JrHT1 and JrHT2) transporters in walnut xylem parenchyma cells: their potential role in early events of growth resumption. *Tree Physiology* **28**: 215-224
- Decourteix M, Alves G, Brunel N, Ameglio T, Guillot A, Lemoine R, Petel G, Sakr S** (2006) JrSUT1, a putative xylem sucrose transporter, could mediate sucrose influx into xylem parenchyma cells and be up-regulated by freeze-thaw cycles over the autumn-winter period in walnut tree (*Juglans regia* L.). *Plant Cell and Environment* **29**: 36-47
- Ewers F, Ameglio T, Cochard H, Beaujard F, Martignac M, Vandame M, Bodet C, Cruiziat P** (2001) Seasonal variation in xylem pressure of walnut trees: root and stem pressures. *Tree Physiology* **21**: 1123-1132
- Lacointe A, Kajji A, Ameglio T, Daudet FA, Cruiziat P, Archer P, Frossard JS** (1993) Storage and mobilization of carbon reserves in walnut and its consequences on the water status during winter. *In Acta Horticulturae*, pp 201-209
- Mayr S, Cochard H, Ameglio T, Kikuta SB** (2007) Embolism formation during freezing in the wood of *Picea abies*. *Plant Physiology* **143**: 60-67
- Morin X, Ameglio T, Ahas R, Kurz-Besson C, Lanta V, Lebourgeois F, Miglietta F, Chuine I** (2007) Variation in cold hardiness and carbohydrate concentration from dormancy induction to bud burst among provenances of three European oak species. *Tree Physiology* **27**: 817-825
- Poirier M, Bodet C, Ploquin S, Saint-Joanis B, Lacointe A, Ameglio T, Malvolti M, Avanzato D** (2006) Walnut cultivar performance of cold resistance in south central France. *In Proceedings of the Fifth International Walnut Symposium*, pp 281-285
- Poirier M, Lacointe A, Ameglio T** (2010) A semi-physiological model of cold hardening and dehardening in walnut stem. *Tree Physiology* **30**: 1555-1569
- Valentin V, Ameglio T, Lacointe A, Julien J, Petel G, Germain E** (2001) Sugars exchanges between vessels associated cells and xylem vessels, in relation with the temperature, in walnut. *In Proceedings of the Fourth International Walnut Symposium*, pp 309-315
